

June 24th picked her up for picnic - started talking about trouble in apart. again. police - Gov. Millican - woman taken away - without jacket - also - big ceremony honoring her for volunteer work - money, presents, etc.

July 1st Betty's house - Mother at her house after getting her out of apart. (Having illusions again) - wouldn't leave room - talked through door - she didn't believe it was me - said Betty, Med were dead - accused me of burning her clothes - finally came out of room - she peeked out window, saw Med - scared of him. Betty & I talked to her about "home" - she insisted she could live alone - didn't need help - tried to tell her about her illusions - all not true - only in her head. We finally persuaded her to go see the home.

July 6th Betty brought Mother here. Fixed ringlets watching TV. (Here reading paper) - suddenly she turned to Gene & said "I heard you - I am not a whore" - talked to her - went to room med. Tried to barricade door - took chair away from her - slept all night in street clothes - light on. Talked to herself or somebody all night.
